

IFSC Europe RESTART Climbing Survey

Here are the results from the survey conducted by IFSC Europe in the week ending 22nd May 2020.

Our thanks go to the 19 participating National Federations.ⁱ

We hope that this information will help with your planning for training and competitions.

Heiko Wilhelm (Sports Vice-President)

Survey responses

Training

1. How would you evaluate the current situation in your country / NF regarding the training possibilities for athletes? (very bad=1 ↔ 5=very good)

2. Are there currently differences in training possibilities between the Youth and Adult Team?

3. When will you gain unlimited training possibilities for Adult/Youth Team in your country?

Climbing Centres

4. If climbing centers are still closed in your country for the public when will they reopen?

Competitions

17 of 19 National Federations are planning to organize competitions on a national level in the ongoing 2020 season.

5. When do you plan these national competitions?

6. What kind of restrictions do you expect for these national competitions?

7. How likely do you think it is that your NF can send Athletes to European Competitions in autumn (September)? (impossible=1 ↔ 5=very likely)

Other feedback was the general concern that “everything is very uncertain and depends on decisions of the government that cannot be foreseen” and as one NF put it “It will be a very limited number of athletes we could send to competitions in Europe”.
